

Vortex SPC™ Spreader

All Vortex™ spreaders can be used year round for fertilizer, pre-emergent herbicides, insecticides, granular growth regulators, ice melt products and other granular materials. The blower on the patented Vortex SPC™ spreader can be detached in a matter of seconds in order to remove excess granular product from driveways, sidewalks and the leaf surface of ornamental plant material. The Vortex SPC™ is designed to ship in one carton and assemble in minutes. Assembly is easy, attach the pre-wired handle, leg, brace, blower, slide the wheels on and you are ready to apply material. This lightweight, wide wheel base unit is maneuverable in small spaces and is powerful enough to handle large areas.

- Hopper Capacity up to 70 Lbs of Material
- All welded aluminum, powder coated frame
- 13x5-6 Pneumatic Tire & Wheels / 28" Wheel Base
- All Stainless steel valve components
- Fully enclosed material storage to prevent material from becoming wet
